### Fringe

For this pattern, I found that completing the fringe before weaving gave me a nice even edge to work from. Find the first chain at the bottom corner of the scarf. Insert hook and pull up a loop leaving an 8 inch tail. Chain 15. \*Turn and work 1 half double crochet slip stitch (HDSS) into each chain (14). Slip stitch into the next 3 stitches on the base of the scarf, then repeat from \*. Secure last stitch with a slip stitch, pull through and knot. Weave in ends.

### Weaving

Cut eight 3 yards, (9 feet) pieces of the Bernat Natural White yarn. To make measuring easy I marked my work table with a piece of tape at 1 yard from the corner.

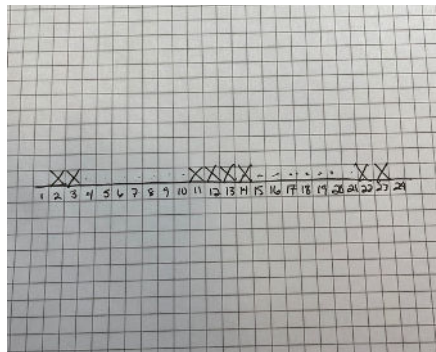

Thread a metal tapestry needle. Take a minute to examine where the chain spaces are in the scarf. It might be helpful to think of it as a needlepoint canvas. The weaving happens in the spaces between the stitches. Starting at the second space on the first row above the fringe pull the needle up and around the first stitch to create an anchor loop leaving an 8 inch tail.

Weave in and out in a straight line up the row end to end. Loop around the last weave to anchor. Check the weaving to adjust the tension to match the scarf you don't want it too tight or loose.

To weave in the end, work the needle through the center of the anchor loop to secure and continue working the needle carefully through the center of the yarn for one or two inches to hide the end. Clip and gently pull into place.

Repeat weaving in spaces, 3, 11, 12, 13, 14, 22 and 23.

## **PATTERN**

If you are a visual learner (like me!) I made a video demonstrating the process! It's actually much easier than it sounds!

(Side note, in the video I say I'm making a Half Double Crochet for the fringe, it's actually a half double slip stitch.)

I think you will really love making this scarf! I know I did! Happy Crocheting!
